

❗ Add the "Print" in each task page

☐ Open, Needs Triage 🌐 Public

Splainin'

Dear Sirs,

Would it be possible to add the option to print out the screen of each task?

At the moment, the only other option is to do a print screen and then copy and paste it on another doc.

Thank you in advance as usual.

Best regards,

Riccardo

It would be enough just to be able to print the title and the description, that is to say, what you actually see when you click on a task (leaving out comments). As
